## Cerro Catedral Ski Area

When you get to the top of Cerro Catedral, you will find many different places to have lunch and enjoy the view. From the top you can admire

the majestic Tronador glacier, look at the huge expanse of Nahuel Huapi lake, see Victoria Island, admire the serenity of Lake Gutiérrez and look at the nearby Mt Otto.

Catedral, affectionately known as the Aspen of South American, has a base elevation of 3,380 ft. with a summit reaching 7,837 ft. The longest run is 1.3 mi. with a vertical drop of 3,512 ft. over 1,500 acres.

## Buenos Aires

Buenos Aires (Fair Winds or Great Air) is the capital and largest city of Argentina. Buenos Aires is located on the southern shore of the Río de la Plata, on the southeastern coast of the South American continent.

The city offers a variety of cultural activities. Visitors may choose to visit a tango show, an estancia in the Province of Buenos Aires, enjoy traditional asado.

## TBA—

*Unfortunately, Rio de Janeiro is a no go due to the Dengue outbreak in the city. We are looking at other options such as Paraguay or the Falkland Islands. Let us know where you would like to go.*

## Iguazu Falls—

Iguazu has awe-inspiring nature with jungle type vegetation around the falls. The actual falls are taller than and twice as wide as Niagara Falls. In the shape of a horseshoe, the falls border Argentina, Brazil & Paraguay. ❖
