PAC RIM GOES TO SOUTH AMERICA—

We are still waiting for 2008 prices. We will be sending out an email bulletin as soon as this trip is finalized. We are looking at Las Leñas for the middle of August. Email us if you are interested.

Why Las Leñas —

Las Leñas has rightfully earned its reputation as the best ski resort in South America with some of the best steep skiing, wide beginner and intermediate runs, uncrowded backcountry, friendly people, breathtaking views and nightlife in the world. There are plenty of groomed runs for all levels of abilities.

The gigantic ski resort of Las Leñas is aptly described in one simple statement— on a clear day, you can ski forever. This means that Las Leñas has more lift-serviced ski terrain than any other ski area in the Western Hemisphere. Combine Vail and Snowbird, remove all the lifts that parallel each other, and you have a fair representation of Las Leñas.

Las Leñas is a self-contained Andean village resort, and hosts many different restaurants, bars, shops, hotels, and even a casino. Buses run throughout the village, making it easy to get around no matter where you're staying.

The nightlife is unbelievable where you can start the night in the cozy "Wine Bar" and then party the night away until 6 AM in "Budwesier Urban Club" or "UFO Point". There is also a casino in the Piscis Hotel. Even with the busy nightlife, Las Leñas is a great place for families as well.

Iguazu Falls—

Iguazu has awe-inspiring nature with jungle type vegetation around the falls. The actual falls are taller than and twice as wide as Niagara Falls. In the shape of a horseshoe, the falls border Argentina, Brazil & Paraguay.

Rio de Janeiro—

Rio de Janeiro is one of the most spectacular cities— a natural harbor with good beaches surrounded by green mountains. Rio is Brazil's best known city in the world. Rio's climate is tropical.
